Fresh & Pure
Dairy Products

An ISO 22000:2018 Certified Company

About Us

- Started operations in 2019 with a production capacity of 2 lakh liters of milk daily, Shiva Dairy Pvt. Ltd., today has emerged as one of the leading Dairy Products manufacturers within a very short span. With a state-of-the-art plant, cutting-edge technology, and stringent quality standards, our products deliver unmatched quality.

Our product portfolio consists of Milk, Dahi, Ghee, Lassi, Panner, and Milk Powder. These products are conveniently packed to suit the various needs of consumers. Our products contain the right nutritional composition with high protein content and are available at reasonable prices.

CHOOSE IT! LOVE IT!

- Our business is based on sound values that work for our staff, our customers, and our shareholders. These values have earned us a solid reputation and place with our customers and will continue to be the foundation of our future.
- At Shiva Dairy, each day is filled with providing new inspiration to consumers, to create fresh trends in dairy consumption. From new ways to delight children, to healthier ways to spread goodness and cheer in families, from delicious ways to entertain friends, to providing the quickest ways in which a mother can provide taste and nutrition.
- Our products play a Central Role in People's lives. From the start of the day till the end we play an important role in providing right taste and nutrition to the people. As we strive to offer healthier and nutritious dairy alternatives to people we keep the taste and quality in mind. Our range of products is designed to make moments both delicious and healthy.

Our Vision

To bring value to the farmer and quality to the consumer always.
To make all the Stakeholders along the entire value chain happy.
To be a world-class pioneer in the dairy industry.

Our Mission

To implement state-of-the-art dairy farm management systems and improve general well-being of farmers by giving them necessary support to help improve quantity and quality of the milk yield.
To continuously improve milk processing facilities to produce the best quality milk and products in the most efficient way and under hygienic conditions.
To be the most loved dairy brand by our customers and most valued brand from our stakeholders perspective.

Infrastructure

The plant is well equipped with state-of-the-art equipment which makes for the best and the latest technology in the milk processing industry. With least human intervention, our machinery and the functions make sure the product reaches you fresh, pure and untouched by human hand. The infrastructure is one in itself equipped with the best quality assurance labs, packaging stores, cold stores, blasting rooms, dock labs and what not. Hygiene being our utmost priority our infrastructure makes for the best with the maximum level of rotational cleanliness. The company's plant is also ISO 22000:2018 certified for its Quality Management System.
